Mohammad Amin Sadeghi

Frontend Developer | JavaScript & React.js

Tehran, Iran | +98 991 586 7462 | amin0xa1b@gmail.com | LinkedIn | GitHub

About me

Frontend developer with experience designing and building single-page applications (SPAs) using JavaScript. Focused on writing clean, well-structured code that follows good client-side development practices. Interested in learning modern frameworks such as React and continuously improving frontend skills to build fast, user-friendly interfaces.

Technical Skills

Frontend	HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js
Storage & Database	Google Firebase, IndexedDB, Local/Session Storage
Tools	Git, GitHub, GitLab
Deployment	Railway, GitHub Pages
Other Skills	Canvas API, Regular Expressions (RegEx), Progressive Web Apps (PWA)

Projects

Todo App

Designed and built a task management app (Todo App) using vanilla JavaScript.

- Implemented complete validation of user input
- Structured the code following modern JavaScript (ES6+) principles

Live demo: aydope.github.io/farmaan

Weather App

An app that uses a public weather API to show real-time conditions for any city.

- Fetches data from the API and handles errors
- Manages loading state while data is being fetched
- Responsive UI for mobile and desktop

Live demo: aydope.github.io/weather-app

ShopiKa - Streetwear E-Commerce SPA

A full single-page e-commerce application built with React, TypeScript, and Vite.

- URL-driven filters and search for shareable, back-button friendly views
- Responsive mobile-first UI with accessibility and reduced-motion support
- Member and admin dashboards with charts, orders, and inventory management

Live demo: aydope.github.io/shopika

Education

Associate Degree Student in Software Engineering — University of Applied Science and Technology

Personal Strengths

- Responsible and detail-oriented in project execution
- Keeps clear documentation and follows modern JavaScript (ES6+) practices
- Committed to continuous learning and improving frontend skills
- Uses AI tools purposefully as a coding assistant
